## ÖNSÖZ

Bir ülkede, sosyo-ekonomik yapıda meydana gelen gelişme ve değişmelerin işgücü üzerindeki etkisini ortaya çıkarmak, alınması gerekli önlemler üzerine politika geliştirmek ve bu politikalar doğrultusunda plan ve programlar oluşturmak işgücü piyasası bilgilerinin varlığına bağlı bulunmaktadır.

Etkin istihdam politikalarının oluşturulabilmesi ve uygulanabilmesi ancak doğru, güncel, güvenilir ve zamanında ulaşılabilir istatistiklerle gerçekleştirilebilir. Sözü edilen bilgilerin üretilmesinde kullanılan en önemli istatistiksel veri derleme yöntemlerinden biri de idari kayıtlardır.

Doğru bilgilere ancak doğru verilerle ulaşılacağı düşüncesinden hareketle, Kurumsal anlamda istatistikî veriler idari kayıtlarımıza bağlı olarak yerel düzeyde bilgisayar ortamında derlenmektedir. Bu bilgilerin kayıtlarımıza doğru bir şekilde alınmasına azami özen gösterilmeye çalışılmaktadır.

Bu bağlamda, yerel düzeyde toplanılan veriler veri tabanından sorgulanarak gözden geçirilmekte olup yerel, bölgesel (coğrafi) ve ulusal düzeyde değerlendirmeye tabi tutulmaktadır. Bu süreçte tablolaştırmak ve grafiklendirmek suretiyle özetlenen veriler, kullanılabilir bilgi haline dönüştürülerek doküman haline getirilmiş ve kitaplaştırılmıştır.

2010 yılı İstatistik Yılığında; başvurular, alınan, karşılanan ve iptal edilen açık işler, işverenlere yapılan takdimler, işe yerleştirmeler, kayıtlı işsiz ve işgücü, yurtdışı işlemleriyle ilgili bilgiler, işgücü yetiştirme programları, işsizlik sigortası faaliyetleri vb. konular yer almaktadır. Ayrıca, bu verilerin; iller, meslekler, yaş grupları, eğitim düzeyleri, ekonomik faaliyet kolları ve kamu-özel ayrımlarına ilişkin dağılımlarına da yer verilmiştir.

İstatistik Yılığ, Kurumumuz kayıtlarına dayanılarak hazırlanmıştır. Bu yıllığın, işgücü piyasası bilgilerine ihtiyaç duyan kullanıcılara ve araştırmacılara hizmet edeceğini ümit eder, yıllığın hazırlanmasında emeği geçen personelimize teşekkür ederim.

## **PREFACE**

Availability of labour market data have an indispensable characteristic in terms of following up changes and developments emanating in socio-economic structure of a country, which enables developing efficient policies as per necessary measures and then organizing relevant plans and programs accordingly.

Developing and implementing of effective employment policies depend on the existing accurate, up-to-date, reliable and timely accessible statistics. One of the most important statistical data collecting methods, inter alia, in producing the said information is official records.

Considering the fact that the accurate information can only be accessible through proper data; institutional statistical data are processed in computer environment based on official records at local level. In this sense the utmost care is taken in transferring those data into institution records.

In this context, the locally collected data are reviewed and checked through database and finally assessed on the basis of local, regional(geographical) and national level. The summarized data by use of tabulating and illustrating in the form of graphs is made into available information, documented and published into books.

In statistical yearbook of 2010; topics such as applications, vacancies taken, fulfilled and cancelled, presentations to employers, placements, registered unemployed and labour force, information regarding abroad services as well as labor force training programmes and unemployment insurance transactions etc. take place. Also distributions of these data by provinces, occupations, age groups, education levels, economic activity branches, public- private sector segmentation are available in this statistical yearbook.

The statistical yearbook is prepared based on our agency's recordings. I hope that this annual will serve to users and researchers needing labor force market information and also thank to all our staff, who has contributed to preparation of this annual.

Assoc. Prof. Dr. M. Kemal BİÇERLİ  
General Director
